Orientation: 18 hours

Work Zone Safety Training:

OSHA-10 and Flagger Certification

OSHA-10 Construction is an online course safety program required by employers to meet insurance requirements. We set up the online course and certification system. The flagger training is a four-hour value-added safety training mandated for road repair and construction. Each module includes these requirements.

Module 1: 40 hours

Grader & Excavator Operations

Operate excavators from 7,000 to 25,000 pound machines in a five-acre outdoor classroom. Learn to grade roads and create ditches with a modern grader. Emphasis on safety, pre-start inspections, and maintenance of graders and excavators. Also, use state of the art John Deere simulators in controlled classroom settings.

Module 2: 40 hours

Loader, Backhoe, Bulldozer Operations

Practice safe operation of wheel and track loaders, backhoes, and bulldozers in the outdoor classroom, a five-acre sandpit. Hands-on instruction in pre-start machine inspections and procedures and preventative maintenance. Seat time for outdoor job site operation and on John Deere simulators for best practices.

Module 3: 40 hours

Skid Steers, Compaction Equipment, Dump Truck Operations

Operate skid steers in a five-acre pit. Install attachments and practice efficient and safe operation guidelines. Operate compaction equipment and roller attachments. Drive dump trucks in preparation for on-road and off-road applications. All machinery will include hands-on pre-trip and maintenance routines.

Prove your skills and start your new career this year!

The Heavy Equipment Operation Program is designed for people who want to gain experience operating specific pieces of heavy equipment and includes classroom, and online training, simulation, and live equipment operation. Choose only the modules which fit your interest, or take all three modules to maximize your career opportunities.

SCHEDULE:

Module 1: July 8—12

Module 2: July 15—July 19

Module 3: July 22—July 26

Mondays through Fridays

7 a.m. to 4:30 p.m.

Tuition:

\$2,900 for one module

\$4,800 for two modules

\$5,500 for all three modules

Eligible Vermont residents can apply for tuition assistance through the VSAC non-degree grant.
